

5 O'clock Edition!

LABOR DAY!

The Eight-Hour Strike Inaugurated.

THE SITUATION INTERESTING.

The Movement Started in All Parts of the World.

A Clank in Florence Makes up Incendiary Address.

LABOR DAY.

As Observed Throughout the World.

CHICAGO, May 1.—A Terre Haute (Ind.) special says: Not less than 3,000 miners in Indiana quit work last night because the wages scale for the year beginning to-day has not been signed.

It is a perfect day and large crowds and great enthusiasm characterize labor demonstration for eight hours. In Chicago the Bricklayers Union, 200 strong, did not take part in the parade, that trade having already been accorded eight hours a day. The other trades unions generally responded, and with bands and banners and floats on which their respective handicrafts were being exemplified, they marched about 10,000 strong through some of the principal streets of the business districts, and the parade dismissed at the Lake Front, where speeches were delivered by local labor leaders.

TRIMBLE (Ohio), May 1.—All the miners of Lucas District No. 9, about 1,100 men, are out to-day. They demand an advance in the scale of machine mining. There is a division of opinion regarding the eight-hour question.

ROME, May 1.—At 8:30 o'clock this morning all was quiet here, and there are no signs that the peace of the city will be disturbed to-day by any labor riots.

PARIS, May 1.—Everything is quiet this morning and there are no outward signs of this state of affairs being disturbed during the course of the day. Troops of cavalry patrolled the streets in the Socialist quarters last night, and in addition many infantry regiments were held under arms. The police are not idle either. They have arrested about 300 Anarchists, Socialists and other persons coming under the category of "dangerous characters." These men will be held as prisoners until all signs of danger have passed, in order to prevent them from inciting riots.

About noon there was a scene of great excitement in the vicinity of Rue Ferry. The cause of the tumult was a loud explosion, which broke the windows all around the locality mentioned. The streets were deserted at the time, and no body was injured. No one seems able to explain the motive for the explosion, which, it is said, was caused by a bomb or dynamite cartridges. The dispatches received from the provinces report a state of general quiet.

BERLIN, May 1.—The majority of the people here are either peacefully at work this morning or are preparing for holiday making. There seems to be no possibility of any disturbance. Reports received here from the provinces are of similar character. Socialist papers, referring to May Day, indicate that the Socialists will postpone their celebration of Labor Day until Sunday next.

NEW YORK, May 1.—At least 4,500 men, representing the different building trades in this city, are out on a strike for eight hours a day.

Up to noon the Associated Press dispatches from Europe show that May Day is passing off more quietly than was expected. In Paris and Marseilles there is some rioting, and in Belgium a large number of men went on a strike, but nothing serious is yet reported.

Dispatches from districts of Eastern Pennsylvania show everything quiet and that no strikes have been inaugurated. The miners are reported to be uneasy in a few districts, but all are awaiting the outcome of the eight-hour movement in the West.

Duquoin (Ill.), May 1.—About 1,500 coal miners of this district struck this morning to enforce the law for eight hours and pay every Saturday. This will probably be one of the most stubbornly contested strikes ever had in this district.

BELLEVILLE (Ill.), May 1.—There

will be no miners strike in this district, and there is apparently none among the miners to join such a movement.

PITTSBURGH, May 1.—The eight-hour strike in the building trades was inaugurated to-day. About 2,000 men are out.

Between 5,000 and 6,000 railroad miners in the Pittsburgh district went out on a strike to-day. Their old scale expired yesterday, and they went out pending an adjustment of wages. Their strike has nothing to do with the eight-hour question.

The Miners' Convention is now in session. A proposition to pay the old wages has been received, but no action has been taken yet. Nearly the entire session this morning was given up to debate on wage scaling, and it was practically decided to adopt two scales, one to rule in the coal trade and the other to govern the lake trade.

A general review of the situation here at 2 o'clock this afternoon shows that carpenters, bricklayers and stone masons to the number of 300 are out on a strike, with many plaining mills hands also idle. Several independent contractors have already granted the eight-hour demand, and the men say it is only a question of a short time when the Builders' Association will be forced to terms.

Specials from New Castle, Erie, Washington, McKeenport, Bradock and other Western Pennsylvania and near-by Ohio towns, indicate a general strike among carpenters, stone masons and bricklayers.

SHAWNEE (O.), May 1.—A message received from Vice-President Nugent this morning, instructed the miners of this district to stay out, as no settlement had been arrived at with the operators. The news was received here with great surprise as it was generally believed that there will be no strike in this valley.

JACKSONVILLE (Ohio), May 1.—Over 500 miners held a meeting this morning and notified the bank bosses that no one excepting them should be allowed around the mines until the question of wages was settled.

ASHLAND (Pa.), May 1.—The eight hour movement is not pressed in this district. The miners are all working as usual to-day.

COLUMBUS (O.), May 1.—A special to the Columbus Dispatch from Nelsonville, Ohio, one of the principal points in the Hocking coal regions, says the miners are all idle to-day, but in an interview with a number of the leading miners it was learned that this does not mean a strike, as the First of May is Labor Day. The opinion of a majority of miners interviewed, is that there will be no strike in Hocking Valley and Straitsville district. Delegates from all the mines in Columbus are in session to-day and it is believed satisfactory arrangements will be arrived at. Moxahala reports no strike or trouble, with little prospect of either.

Out of the 12,000 men employed in the Hocking and Sunday Creek Valleys, there are not more than 1,500 at work, the rest having been ordered out to await the result of a conference being held there between the operators and miners. At the convention this morning a resolution was adopted favoring the resumption of work until May 1, 1892, at last year's prices and conditions for Hocking Valley for pick mining.

At Carbon Hill, over 1,500 miners, working at Sand Run Lonstreth and Monday mines quit work this morning and declared that they will stay out until the wage question is settled.

A special from Logan says none of the mines are running in Hocking Valley to-day, except at Straitsville. A prominent miner stated to a Dispatch reporter to-day that the operations in Hocking Valley, especially those owning mines in Pennsylvania, are scheming to incite the miners of this district to strike in order to secure the bulk of the coal contracts for their Pennsylvania mines. The above is being pretty generally believed among the miners and they are quietly waiting, and hoping to derive some benefit to their cause from the fight which they claim will surely come between the operators.

ST. LOUIS, May 1.—A dispatch from Coal Hill, Ark., says no strike will occur at the mines there.

The carpenters and joiners asked for 40 cents per hour. Out of 350 bosses who received the demands, ten refused and the balance are not yet heard from. The men were ordered to report for duty to those bosses who granted the demands. No strike has developed in other trades.

LOUISVILLE, May 1.—Labor Day drew out the largest parade ever seen here, the day being made a holiday.

HUNTINGTON (Pa.), May 1.—The proposed strike of the Pennsylvania batuminous miners, which was announced to-day, has been, indefinitely declared off and work continues as usual.

CINCINNATI, May 1.—There is no strike in the building trades here, and it is said there is no prospect of any

trouble. In Covington, Ky., all the carpenters struck for a nine-hour day at \$2 50 a day, and the bricklayers and other workmen say that if non-union carpenters are employed they will stop.

FLORENCE (Italy), May 1.—4:30 p. m.—A crowd composed of about a thousand workmen held a meeting this afternoon on the piazza Savanarola. During the progress of the meeting the speaker made a most violent and incendiary address, calling upon the workmen present to plunder the houses of the wealthy classes. The police arrested the man who was making these remarks. A tumult followed and the workmen began to handle the policemen roughly in an attempt to rescue the prisoner.

Finally two troops of cavalry charged upon the rioters, causing the latter to retire. As the rioters retreated down the neighboring streets they broke store windows right and left along the route of their flight. Several of the prominent ones in the disturbance were arrested, and the stores throughout Florence have been closed for fear there will be further disturbances.

WILKESBARRE (Pa.), May 1.—There is great interest manifested among the laboring classes of this region regarding the results of the fight for eight hours and higher wages by their fellow workers through the bituminous regions of this State and Ohio. While there seems to be no disposition among the men about the anthracite collieries for any immediate demand for higher wages, less hours, or even to strike, the labor leaders aver that this is simply because the men are not prepared for any such departure.

CLEVELAND, May 1.—To-day at the lumber docks of Woods, Jenks & Co., a number of strikers attacked Ralph Gray, a partner in Woods, Jenks & Co., N. I. Fisher, President of the Fisher, Willson Lumber Co., the foreman of the latter firm and a non-union man whose name is unknown. All were seriously injured. There were half a dozen policemen on the docks at the time and when they charged on the strikers they were struck with bricks and clubs. Mean while a squad of 70 officers marched upon the docks and the strikers retreated.

WHEELING (W. Va.), May 1.—Miners employed in this vicinity to the number of 1,000 quit work this morning on account of the operators failure to sign the scale. It is not expected the strike will be of long duration.

CHARLESTON (W. Va.), May 1.—There is no strike in this section.

KANSAS CITY, May 1.—There is nothing to indicate that this is Labor Day, as no celebration was held by the laboring classes. No strike is reported among the coal miners of Kansas.

DENVER, May 1.—Reports up to noon from various points of Colorado, New Mexico and Wyoming indicate the strike movement is of but little importance there.

CHATTANOOGA (Tenn.), May 1.—The Union carpenters, painters and boiler-makers of this city went out this morning and the plumbers will strike to-night.

BOSTON, May 1.—The expected strikes have so far hung fire in Boston. To-day the cabinet makers presented their demands for nine hours, and it is receiving the consideration of the employers. The men are at work. The boiler makers are also at work. Many men are anxious to strike for nine hours a day and would have done so but for outside interference. The horse-shoers will decide this evening whether to strike or not, if their requests for nine hours are refused. The probabilities are their demands will be granted.

CARBONDALE (Pa.), May 1.—The collieries operated by the Delaware & Hudson company, and vicinity are running to-day with the usual force of men.

THE PRESIDENT AT SANTA CRUZ. SANTA CRUZ, May 1.—Santa Cruz entertained the President and party to-day in a royal manner. The town was extravagantly decorated with flowers and bunting and the Presidential party enjoyed most thoroughly the entertainment accorded them. Their visit to Los Gatos was equally as enjoyable.

CARDINAL MANNING ON THE PARNELL. LONDON, May 1.—In a letter published to-day, Cardinal Manning again attacks the Parnellites, classing their actions as being suicidal and as being the greatest blow which Ireland's reviving hopes could receive.

BISMARCK RETURNED. BERLIN, May 1.—As later returns of the election at Geestemunde come in, they show that the return of Prince Bismarck to the Reichstag is now certain.

BISHOP McINTYRE DEAD. HALIFAX May 1.—Bishop McIntyre, the venerable Bishop of Prince Edwards Island, died last night of heart disease.

SHIP-YARD BURNED. MADRID, May 1.—It is rumored here that Rivas & Palmer's ship-yards at Bilbao have been burned to the ground. The fire is said to be of incendiary origin.

Railroad Problem Discussed.

By Associated Press.]

ST. PAUL, May 1.—Chairman Stickney of the Chicago, St. Paul and Kansas City railway, in his book—"The Railway Problem"—the prevailing situation is exhaustively discussed. One of his suggestions is, "clearly if the government would enforce its laws against railroad companies, its chief executive officer, who has charge of this department, whenever he becomes satisfied any management is persistently disobeying the laws, should have power to take possession of property and manage it through the intervention of a receiver or otherwise, until he can have satisfactory assurance that the law will thereafter be obeyed. The enactment of the law giving this power would probably be effective to prevent discriminations and other violations of the law without being actually set in motion. Such a law, if enforced, would reach the real culprit, where fines and penalties reach only their representatives and employees."

The Butcher's War.

By Associated Press.]

CHICAGO, May 1.—The fight between Morris, Swift & Co., Armour & Co. and the Union Stock Yards over the new stock yards established by the three firms named has been taken into the Circuit Court, where the proprietors of the new yards each filed a bill seeking to restrain the old company from interfering with the delivery of live stock. There is no way of reaching the new yards except over the old company's tracks and the complainants assert that unless cattle can be shipped over those tracks their business will be irreparably injured. They seek to compel the defendant company to do the necessary hauling or permit other roads to use the tracks therefor. An application for an injunction will soon be made.

The House of Commons.

By Cable and Associated Press.]

LONDON, May 1.—In the House of Commons yesterday Wm. Henry Smith moved that precedence be given the Irish land purchase bill over orders of the day. Smith added, however, that the government proposed to except from this motion, Wednesday, May 6, so as to enable the House on that day to debate the Women's Suffrage bill. Sir Henry James, Liberal, but opposed to Mr. Gladstone's home rule scheme, moved as an amendment that the Irish land purchase bill be taken up every day until it passed through the committee stage. His amendment carried.

Hutchinson Found.

By Associated Press.]

EVANSVILLE (Ind.), May 1.—B. H. Hutchinson, the missing Board of Trade man of Chicago, has been found here by the police.

The Chief of Police found Hutchinson walking aimlessly about the street and took him into custody. He is being held until word is received from Hutchinson's sons in Chicago. The old man appears to be entirely unbalanced in his mind.

Bad Farming.

By Associated Press.]

LAWRENCE (Mass.), May 1.—Professor Snow has returned from a visit to Russell county with Secretary Mohler of the State Board of Agriculture, and reports that more than half of the wheat fields visited in Russell county is in a damaged condition. The difficulty is with bad farming rather than bugs.

Influenza Spreading.

By Cable and Associated Press.]

LONDON, May 1.—Reports received here from all parts of England show that the epidemic of influenza is still spreading. There are many cases in London. The mills and factories in different places have been compelled to close on account of the disease.

The Newmarket Race.

By Cable and Associated Press.]

LONDON, May 1.—This is the last day of the Newmarket first spring meeting. The race of the day was for 1,000 guineas, for 3-year-old fillies. It was won by Dime Melody, Late Canticle second and Sophista third. There were 12 starters.

A New Departure.

By Associated Press.]

LANSING (Mich.), May 1.—The bill providing for the choice Presidential electors by Congressional districts has passed both Houses of the Legislature; also a bill drawn up by the Democrats to divide into one hundred representative districts.

Confessed the Crime.

By Cable and Associated Press.]

VIENNA, May 1.—A Russian named Glikoff, arrested in Serbia for the murder of Belcheff, the Bulgarian Minister of Finance, has made a confession. He has been sent to Bulgaria.

Ship-yard Burned.

By Cable and Associated Press.]

MADRID, May 1.—It is rumored here that Rivas & Palmer's ship-yards at Bilbao have been burned to the ground. The fire is said to be of incendiary origin.

No More Dollars.

By Associated Press.]

WASHINGTON, May 1.—The first of the steps contemplated by Secretary Foster for getting the subsidiary coin or the new treasury into circulation, was taken to-day, when the following notice, signed by United States Treasurer Nebecker, was prepared at the Treasury Department and will be sent to the banks and bankers throughout the United States: "The coinage of standard silver dollars authorized by the act of February 28, 1878, has been discontinued by the act of July 14, 1890. The Treasurer finds it inconvenient to furnish them otherwise than in the redemption of silver certificates or Treasury notes, but will forward silver half dollars, quarter dollars or dimes to any address free of cost for transportation by express in sums of \$2,000 or more or by registered mail, in packages of \$70 dollars in exchange for any other kind of money deposited in the Treasury or any Sub-Treasury or depository bank. Remittance for this purpose will be received by the Treasurer and Assistant Treasurer in the form of draft on any bank or banker in Washington, New York, Boston, Philadelphia, Baltimore, Cincinnati, St. Louis, New Orleans or San Francisco."

Foster on Finances.

By Associated Press.]

WASHINGTON, May 1.—Secretary Foster in speaking to-day concerning financial matters said in his opinion the government was able to take care of all of its obligations, and that in addition to \$236,000,000 of bonds already retired by this administration, it would, in his opinion, considerably reduce the amount in the two years that remain. Concerning the \$100,000,000 legal tender redemption fund in the treasury the Secretary said he did not expect that any condition of affairs would arise which would make it necessary for the government to touch it. He intimated, however, that this fund might be used without legislative action in case of absolute necessity to prevent any discredit to government obligations. Foster said the last statement made by Leech, Director of the Mint, was admirable. There were some statements in it, however, which he would have expressed differently had he prepared it himself.

A Religious Riot.

By Cable and Associated Press.]

ATHENS May 1.—A dispatch from Zante, the capital of the Ionian Islands of that name, brings news of a serious riot which had taken place there.

To-day was observed by the Greek Christians as the Greek Good Friday, and part of the ceremonies of the day consists of a procession. When they neared the Hebrew quarters, the Christians besieged that section. Upon the refusal of the Christians to retire in peace, the soldiers there fired upon them, killing and wounding several people. The Christians, the dispatch adds, are now pillaging the houses of the Hebrews and threaten to burn the Jewish quarters of the town.

Train Robbed.

By Cable and Associated Press.]

VIENNA, May 1.—A passenger traveling from Cracow to Lemberg last night on the express train suddenly drew two revolvers, and with one in each hand, demanded of his fellow travelers their money and valuables. A frightful struggle ensued in the narrow compartments, for though the men assaulted were unarmed they fought with desperation. The ruffian killed two of the men and then jumped from the train while it was going at full speed. No trace of the miscreant could be discovered.

A Horrible Murder.

By Associated Press.]

WINCHESTER (O.), May 1.—Oliver Morgan, living in this county, was found dead in his house, having been shot through the heart. The room was smeared with blood and showed evidence of a desperate struggle. A strange man, apparently a tramp, giving his name as Charles McKinney, has been arrested and accused of the horrible crime. When arrested he was found to have two fresh cuts or scratches on his face and a bloody handkerchief was found in his pocket.

A Socialist Demonstration.

By Cable and Associated Press.]

MARSEILLES, May 1.—A Socialist demonstration took place this morning. The Socialists taking part refused to disperse when ordered to do so by the authorities, and the military was called for. They quickly scattered the Socialists, many of whom were arrested.

Idle Rumors.

By Cable and Associated Press.]

LONDON, May 1.—It has been leaped that the report of the stranding of a trans-Atlantic steamer near Kinsale, after sending up rockets as signals of distress, originated in the celebration of May Day.

E. Ellen Dead.

By Associated Press.]

A private dispatch received from Truckee this afternoon conveys the sad intelligence that E. Ellen, an old and respected citizen of that town, died to-day.

Friday, May 1, 1891

Review of Protective Legislation.

A correspondent writes to the American Economist from Louisville, Ky., asking whether he is right in maintaining that "previous to 1861 the United States did not have a protective tariff for a sufficient number of years in succession to demonstrate fully its good effects," and that "the protection given was not so high and comprehensive as it should have been."

In the beginning of the government, means of transportation and of communication between the old and the new world were so costly and dangerous that a low tariff rate was quite as effective in keeping out foreign wares as was a rate many times higher, after the Atlantic cable and the six-day steamship came to reduce cost, time and risk involved in over-seas commerce. The duties which the First Congress adjudged sufficiently protective would afford almost no protection now, when foreign goods can be brought here so cheaply, quickly and certainly. Science and invention have almost annihilated the natural protection extended to American industry in 1789 by the wide and terrible Atlantic. Besides, it was not practicable to levy extremely high duties before the new industries had sufficiently developed to insure an adequate supply of domestic products. As our productive capacity expanded, the protective system, in accordance with the policy outlined by Alexander Hamilton in his report on manufactures, was extended by subsequent acts to the number of fourteen before the war of 1812 broke out. Still our industries were yet young, and tariff legislation up to this time, in most instances, had been only approaching the efficient protection which Hamilton recommended, so soon as a supply of domestic products was assured to the people.

During the war of 1812, and for several years after, tariff legislation while in the main of a decidedly protective character, was too radical and uncertain to produce the best results. The tariff of 1816 was intended to be protective, and its principle of levying imposts was perhaps more truly such than that of any preceding tariff. But extraneous conditions—notably the sudden transition from the excessive war tariff of the years just preceding it, and abnormally low prices abroad, which came in its wake—neutralized its effect so that it disappointed the expectations of its friends. Nine supplementary acts of a more or less protective character were passed in the succeeding years, the last in 1832. Under such conditions, the fullest benefits of protection could not reasonably be expected.

In 1833 the course of tariff legislation was reversed, and for the first time tended toward free trade. The movement resulted in the panic of 1837. Popular sentiment compelled a return to protection in 1842. Then came the free trade tariff of 1846, made more radical by the act of 1857, which continued to the enactment of the Morrill Tariff in 1861.

It appears, then, that our correspondent is quite right. Never before the war had the country enjoyed undisturbed and adequate protection for so long a time accompanied by so reliable assurances of its permanency, as has been the case since the enactment of the Morrill Tariff. And no other tariff period can boast of results so gratifying and glorious.

The London Times complains of the delay of the Supreme Court of the United States in settling the case of the Canadian sealer. The Times should remember Jarndyce vs. Jarndyce. When the new law enlarging the Federal Court system gets into operation better time will be possible. At present other people must be content to be served as well as we are ourselves.

Efforts are being made in England to prevent the immigration of destitute aliens. England should at the same time reform her own emigration methods. For years England has been dumping her paupers and criminals on the United States and her own colonies.

A PERENNIAL APPETITE.

One Hundred Oysters and Fifty Clams Only a Lunch for Him.
There is a man born and bred in Kensington whose appetite has never been satisfied. It was folly to say that he has never yet refused a second helping of the viands set before him morning, noon and night, for the cravings of his insatiable self have not once been satisfied. For fifteen years or more he has resided in the northeast section of the city. He was at one time sergeant of police in the Eighteenth district, but he has now sought other fields of usefulness.

There are stomachs and stomachs, of course, but the capacious maw of this denizen of a corner of the city has yet to be equalled. His astounding feats at the dinner table put to blush all other performances of a similar character. He is a prey to an appetite whose abnormality is phenomenal and which would cause him mournful dreams at night but for the acknowledged fact that "it isn't his fault."

It is asserted on good authority that this ex-sergeant went into Meyer's saloon on Girard avenue, below Vienna street, one day, and sitting down to a dinner that had been prepared for seven people, ate every part of it. There were six pounds of roast mutton, besides large vegetable dishes full of white and sweet potatoes, beans, a half-pound of butter, and a large loaf of bread. Before sitting down to the table he of the hearty appetite had asked Mrs. Meyer to board him, but after witnessing the alarming disappearance of the food she concluded that she had better not.

One election night when the sergeant was very busy and it was impossible for him to go home to supper he sent the turnkey to a neighboring restaurant and had supper sent in for two persons. He ate both of the meals and then sent out for one hundred prime oysters and fifty bull-neck clams. The turnkey thought that he would get a few of the oysters, but was disappointed, as the sergeant devoured the whole lot and then declared that he was hungry.

PERIODICITY OF GREAT COLDS.

Length of Intervals Elapsing Between Winters of Greatest Severity.

One of the English meteorologists calls attention to some points in connection with the present extraordinary weather, and in reference to the very interesting question of the periodicity of such colds. It was stated in a paper on December 31, 1890, that the cold period of nineteen days up to that date was the longest period of low temperature observed at Greenwich since the winter of 1812-13; that is, a period of [1801-1814] seventy-seven years, or eleven years multiplied by seven. Again, the telegram from Vienna on the same day stated that the Danube was frozen over at Buda-Pesth for the first time since 1879, a period of [1890-1879] eleven years.

Again, there was reported from San Francisco an earthquake which occurred there on the 2d of February of the present year. Prof. Holden, of the Lick observatory, reporting thereon, stated that it was the severest shock since that of 1868. Reckoning the present shock as the end of 1890, the interval would be [1890-1868] twenty-two years, a multiple of eleven. Thus in these three cases a period of eleven years, or a multiple thereof, comes out.

It is assumed that between seismic energy and atmospheric disturbances there is a relation. This period of eleven years is approximately that of the sun-spots, a minimum of which occurred last year. It is also the period of the years of scarcity of grain in India, and occurs frequently in connection with earthquakes. In this respect there is a very distinct interest as regards the present year, since, according to the prediction of the late French astronomer Delaunay, which made in a communication to the French Academy of Science in 1879, this year will be one of maximum energy and frequency as regards earthquakes. The series of years indicated by him as likely to prove markedly seismic is 1883, 1886, 1891, 1898, 1900, 1912 and 1919. The two first of the series have been fairly well characterized by the occurrence of great shocks, and as last year has been notable for the absence of these there is already a likelihood that the present year may be marked by seismic activity, as were the previous years indicated. And so far the theoretical views on which the prediction was based would receive support.

"Grape Fruit." "Grape fruit" is a citrus fruit, closely resembling, and by some said to be identical with, the shaddock, named from the growth of the fruit in clusters. Its production in this country is chiefly confined to Florida. The tree is larger and handsomer than that of other fruits of its class. The fruit is large, frequently five inches in diameter, has a smooth, light-yellow skin, ripens later than the orange and is found in the northern markets from December to May. It has medicinal properties, and when well ripened is by many people considered superior to the orange. The bitter membrane that divides the pulp should be removed before the latter is eaten or the pulp should be scooped out from it. There are several varieties, and the number is enlarged by importations. The grape fruit is known also as the pomelo, pompelous and by other names.

Hasn't the Girl. The Indian is a fighter only when favored by circumstance. He always wants the odds in his favor, and big odds at that. Military men figure that a troop of 100 cavalry can charge and scatter a band of 500 mounted Indians on the open, and that with a loss of only 5 per cent. On the other hand, 100 Indians in a gulch will stand for 500 whites.

MISCELLANEOUS.

Scrofula

In Its Worst Form—"White Swelling" Cured.

The remarkable effect of Hood's Sarsaparilla in the following case illustrates the power of this medicine over all blood diseases: "My son, 7 years old, had a white swelling come on his right leg below the knee, which contracted the muscles so that his leg was drawn up at right angles. Physicians lanced the swelling, which discharged freely, but did not help him materially. I considered him."

A Confirmed Cripple. I was about to take him to Cincinnati for an operation, expecting his leg would have to be taken off, and began giving him Hood's Sarsaparilla in order to get up his strength. The medicine woke up his appetite, and soon pieces of bone were discharged from the sore. We continued with Hood's Sarsaparilla, as it seemed to be doing him so much good, and the discharge from the sore decreased, the swelling went down, the leg straightened out, and in a few months he had perfect use of his leg. He is now apparently as well as ever." JOHN L. McCOMB, Notary Public, Ravenswood, W. Va.

Hood's Sarsaparilla Sold by druggists, \$1.50 per bottle. Prepared only by C. L. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, head-aches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, its many excellent qualities commend it to all. It is for sale in 50c and \$1 bottles by all leading druggists.

IS THE ONLY KNOWN REMEDY IN THE WORLD THAT WILL ABSOLUTELY CURE SICK HEADACHE!

TOD & CRAWFORD, Commission Merchants and Dealers in Building Material.

Santa Rosa, Cal. Jan. 19th, 1891. Briggs Medicine Co. Gentl—Yours of the 15th received. I shall be glad to assist you in promoting the sale of Dr. Leslie's Special Prescription. Indeed, most of what I have bought of you in the past four years has been given away, myself having been completely cured after a life-time of headache, as I shall gladly certify. Should you write to either Dr. Markell or Dr. Mason, of this place, you may refer to Tod & Crawford, as to the superiority of your Special Prescription. Yours truly, Will Tod.

Price 25 Cents. Sold by J. B. McCullough.

Briggs Medicine Co., San Francisco, Cal. m17dRwrm

HEADACHE! Of any kind or from any cause CURED! In from 30 to 60 minutes with certainty and safety! To make of how long standing, by using Rev. J. W. PENNIE'S CEPRALINE!

Satisfaction Guaranteed or Money Refunded. If your druggist does not keep it, send ten cents for a trial bottle, or one dollar for full size, by mail free, to California Cephaline Company, Reno, Nevada.

PENNYROYAL PILLS. Small and easily concealed. Always reliable. Cures all kinds of female troubles, such as irregular menstruation, white discharge, etc. Each box contains ten pills. Price 25 cents. Sold by all druggists.

CHICKEN'S EGG. A small, round, white egg, used for medicinal purposes. Price 25 cents. Sold by all druggists.

COMMERCIAL DRUGGISTS. Commit fraud in substituting any other porous plaster than BENSON'S. Benson's is asked for. They do so in order to make more money out of you by selling you something that costs them less. Beware of worthless imitations.

JOTTINGS.

Mrs. Gervase Graham's celebrated Cucumber and Elder flower Cream for sale by Miss E. G. Gibbs.

Hotel Porter, you guest of the house? Mr. Gruff-No; I'm paying for what I get. And take lunch at Jake Becker's with a schooner of Beer.

From a Contemporary—"With the exception of a 20-cent piece the unhappy man gave no sign of life." Eye glasses for all eyes at the jewelry store of Richard Herz.

Old Gruffly (to his daughter, returned from the play)—"Well, how did you like it?" Miss Gruffly—"Oh, it was just lovely! The heroine wore eleven different dresses!" Order your wood of J. F. Aiken.

Bill Cote—"Say, old boy, these typewritten letters of yours are full of errors—'s' used for 't's', 'l's' for 't's', and dollar-marks for 's's'." Jack Wood—"Ah! but you ought to see her 't's'." Come over to the Riverside Hotel and dine with me.

One of the elect—St. Peter—What's the matter with the portal? Saint—One of the Four Hundred has arrived and refuses to go in at the regular gate. He wants to know where the stockholders' entrance is. Go to C. A. Thurston's for the latest magazines.

Cure for Rheumatism. G. G. Treat, of West Granville, Mass., writes of Alcock's Porous Plasters: "For rheumatism, neuralgia, a pain in the side or back, coughs, colds, bruises and any local weakness, they truly possess wonderful curative qualities. I have recommended them to my neighbors with the happiest results, many of whom but for Alcock's Plasters would be in a crippled condition at home. In every instance where they have been faithfully and properly applied the result has been wonderfully satisfactory."

Remarkable Rescue. Mrs. Michael Curtin, Plainfield, Ill., makes the statement, that she caught cold which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking ten bottles found herself sound and well, now does her own household work and is as well as she ever was. Free trial bottles of this Great Discovery at Wm. Finner's Drug Store, large bottles 50c. and \$1.00.

A Sure Cure for Piles. Itching Piles are known by moisture, like perspiration causing intense itching when warm. This form, as well as blind, bleeding and protruding piles, can be cured directly on the parts affected, absorbs tumors, alleviates itching and it is a permanent cure. Dr. Bosanko, Fiqua, O. Sold by S. J. Hodgkinson.

Happy Hoosiers. Wm Timmons, Postmaster of Idaho, Ind., writes: "Electric Bitters has done more for me than all other medicines combined, for that bad feeling arising from Kidney and Liver trouble." John Leslie, farmer and stockman of same place, says: "Find Electric Bitter to be the best Liver and Kidney medicine, made me feel like a new man." W. Gardner, hardware merchant, same town, says: "Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies. It found new strength, good appetite and felt just like he had a new lease on life. Only 50c. a bottle at Wm. Finner's drug store."

Spring Medicine. Dr. Gunn's Improved Liver Pills on account of their mild action are especially adapted for correcting Spring disorders, such as impure blood, tired brain and itching and worn out body. They act promptly on the Liver and Kidneys; drive out all impurities from the blood, and liberate the system. Only one pill for a dose. Try them this Spring. Sold at 25 cents a box by S. J. Hodgkinson.

The California Cephaline Co. Of Reno, Nev., has just incorporated to manufacture Rev. J. W. Pendleton's celebrated Cephaline, a specific for headache. Itself on its merits. All druggists keep it.

Backlen's Arnica Salve. The best salve in the world for cuts, bruises, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. 25c. per box. Sold by Wm. Finner.

In 1850 "Brown's Bronchial Troches" were introduced, and their success as a cure for Colds, Coughs, Asthma, and Bronchitis has been unparalleled.

THE REV. GEORGE H. THAYER, of Bourbon, Ind., says: "Both myself and my wife owe our lives to SHILOH'S CONSUMPTION CURE." For sale by S. J. Hodgkinson.

ARE YOU MADE miserable by Indigestion, Constipation, Dizziness, Loss of appetite, Yellow Skin, etc., and all skin eruptions and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. 25c. per box. Sold by Wm. Finner.

SHILOH'S CATARRH REMEDY—a positive cure for Catarrh, Diphtheria and Canker-Mouth. For sale by S. J. Hodgkinson.

"HACKMETACK" a lasting and fragrant perfume. Price 25 and 50 cents. For sale by S. J. Hodgkinson.

SHILOH'S CURE will immediately relieve Croup, Whooping Cough and Bronchitis. For sale by S. J. Hodgkinson.

A PROMISING OUTLOOK.

What is Being Done in the Way of Mining in Humboldt County. Nevada is not dead nor yet asleep. There are many little camps throughout the State, not generally heard of, where active operations are going on. In the neighborhood of Mill City, Humboldt county, an era of prosperity is about to dawn. Through the courtesy of W. H. Woolcock the Central Nevada has obtained the following notes pertaining to that section:

Mill City, on the C. P. R. R., 88 miles west of Battle Mountain, is the center of an activity that may bring great returns. Peter Woolcock, proprietor of the Mill City Hotel, has a small mill near the railroad, where he is about to reduce 400 tons of ore from the Humboldt Queen, five miles out of Orem. The rock has been milled by team and shipped 30 miles by rail.

W. J. Woolcock and Peter Organ have a contract to haul 16,000 feet of lumber to Indian Creek, twenty-five miles south of Mill City. A New York company have purchased the numerous claims in Spring Valley, until lately worked and owned by Chinese. The Chinese, numbering 500, staked in the rolling hills of the valley for upward of ten years, having purchased the claims of white locators who considered the gravel too poor to give remunerative returns, and it is with surprise we learn that the close-mouthed Celestials have trudged along until \$30,000 in gold dust has been obtained. This immense production attracted the attention of wealthy New Yorkers, who will build a large flume, commencing at the waters of Indian Creek and running six miles along the foothills to Spring Valley. An immense volume of water will thus be obtained. Hydraulic rams will be placed in position and placer mining on a large scale is to take the place of the Chinese sluices.

The Eagle mine of Spring Valley, a gold quartz claim, owned principally by San Francisco Jews, was a productive piece of property up to a year ago, when the Israelites inaugurated a game of "freeze-out" against Pat Heeny, the original owner, who sold them a majority of the shares. Last November, they offered \$25,000 to obtain his remaining 40,000 shares, which was refused, since when they have levied assessments that he cannot meet.

The Star City antimony claims, twelve miles south of the railroad, on the Unionville road, controlled by Peter Woolcock & Co., are in operation. The rock is sold in the San Francisco market at \$53 per ton.

Hendra Bros. have started their mine and mill at Dun Glenn. Peter Organ is freighting the quartz to the mill.

TRYING AN EXPERIMENT.

Will Nevada Be Called Upon to Supply California With Grain and Spuds? Geo. W. Dickson, Austin's leading butcher, was in Battle Mountain Tuesday, having just made a trip to Santa Rosa and Healdsburg, Cal., disposing of six car loads of cattle purchased in Grass Valley and shipped out of Bozeman, from where, on the same date, he went to Chicago with a car load of cattle shipped by Sibbald and Thies. By disposing of the cattle in the smaller country towns of California, he realized more than was offered in San Francisco, but he is anxious to learn how the California sale will compare with the shipment made East, for it is a new adventure for the Nevada stockman.

While in the Golden State Mr. Dickson observed that the farmers are everywhere cultivating fruit, fruit—nothing but fruit. He asks the Nevada where the future grain, hay and potato supply is to be derived, and will not the Nevada farmer be called upon to awaken to the opportunity and prepare for the time when California will be all fruit and our State will help supply, at a good figure, their markets with the staples of life. This drifting into one industry will be beneficial to us, and even tend to help the stock-business of our State.

SARA AND HER DOGS.

Three Canines Cost Her a Good Deal of Trouble and Money. Sara Bernhardt was wrathful a few days ago, and positively refused to make the trip to Australia. As is well known, Sara is possessed of three dogs that she values highly, and which accompany her wherever she goes. Now the Colonies have a law which compels every imported dog to be placed in quarantine for three months before it can be permitted to land, and when Sara heard of this she became indignant and wanted to turn back to her beloved Paris. Finally it was suggested that by the expenditure of \$1,000 the dogs might be landed, and the following program was decided on: A physician will be secured at Auckland, and from thence to Sydney continue in constant attendance on her pets. He will then make out and sign a certificate of their being in perfect health, and by means of this it is believed that the Sydney authorities may be placated and a landing gained for the dogs.

The Lord of Killarney.

On last Friday's train, says the Walker Lake Bulletin, a party consisting of Col. W. J. Sutherland, Judge M. A. Murphy, Senator Evan Williams, Dr. Lee and Mr. Herbert arrived in Hawthorne, en route for the Owens Valley. Mr. Herbert is the owner of the famous Killarney lakes, and he is the guest of the Irrigation and Water Company, and the object of the wealthy Irishman's visit is the purchase of land in this inviting region. The celebrated marble quarry was also visited, as well as the different valleys in this vicinity. Mr. Herbert is especially interested in the former, which produces a variety of yellow stained marble, the production of which is growing very limited in other parts of the world.

Clean Up.

The Chief of Police should see to it that the streets and alleys are cleaned up. A ride through the town will convince anyone that a little time and money spent in that direction would add greatly to its appearance and health.

HALF AROUND THE WORLD.

Dr. Brown Filling a Very Successful Lecturing Engagement Here. A good sized and appreciative audience at the Baptist Church last evening greeted Dr. Selah W. Brown, the celebrated lecturer and traveler. Dr. Brown is possessed of a musical voice and exceptionally pleasing delivery. He has the gift of picturing scene and incident so graphically as to seem a real passing image or event. Throughout, his lecture was listened to with rapt attention, punctuated here and there with bursts of merriment as he related some one of his many humorous adventures. Soon after landing in France Dr. Brown was forced to the conclusion that the people of that sunny land did not understand French—at least not the French that he spoke. The Alexandrian Arab donkey bay and his donkey caused considerable amusement as materialized under the Dr.'s description. His experience in that respect coincided with Mark Twain's, who, every time he wished to change his direction when he rode one, was forced to the conclusion of dismounting and lifting the animal's stern around; but in dismounting all that was required was to let his legs down when the animal ran out from between. The Arab bay has picked up an odd jargon of English and thinks Yankee Doodle-do and "Buckash" and it is with surprise we learn that the Duke of Wellington or General Grant, accordingly as he imagines his patron to be French, English or American. Seated upon the side of the great pyramid, one of these Arab bays suddenly burst into the cry of "Buckash" and kicking into the Dr.'s face, asked him if he was "all serene." The doctor told him he was.

Dr. Brown speaks again to-night at the Baptist Church and also Saturday night. His subject to-night will be "Half Around the World from San Francisco." A large audience should be in attendance as he is one of the best speakers who has visited Reno in a number of years.

PROPOSED AMENDMENT.

Initial Step Taken by the Last Legislature to Increase the Limit. NO. XXVIII.

Senate Concurrent Resolution relative to amending the Constitution of the State of Nevada.

Resolved by the Senate, the Assembly concurring, That the Constitution of the State of Nevada be amended as follows:

Amend Section 3 of Article IX of the Constitution of the State of Nevada so as to read as follows: "Section three. For the purpose of enabling the State to transact its business upon a cash basis, the State may contract public debts; but such debts shall never in the aggregate, exclusive of interest, exceed the sum of one million dollars, except for the purpose of defraying extraordinary expenses as hereinafter mentioned. Every such debt shall be authorized by law for some purpose or purposes to be distinctly specified therein, and every such law shall provide for levying an annual tax sufficient to pay the interest semi-annually, and the principal within forty years from the passage of such law, and shall specially appropriate the proceeds of said taxes to the payment of said principal and interest, and such appropriation shall not be repealed, nor the taxes postponed or diminished until the principal and interest of said debt shall have been wholly paid. Every contract of indebtedness entered into or assumed by or on behalf of the State, when all its debts and liabilities amount to said sum before mentioned, shall be void and of no effect, except in cases of money borrowed to repel invasion, suppress insurrection, defend the State in time of war, or if hostilities be threatened, provide for the public defense."

KANSAS' ALLIANCE ECONOMY.

Retrenchments Made Right and Left by Them. The Alliance Legislature of Kansas has not passed temporarily out of view without leaving its mark upon the affairs of the State. It has retrenched right and left, with a free and scalping hand. For instance, the salary of the Superintendent of the Reform School was cut down from \$1,200 to \$1,000 a year. The matron's pay sunk from \$400 to \$300. Ten teachers who had averaged \$360 a year will henceforth receive \$300. The night watchman receives \$25 a month instead of \$30. The head farmer and head gardener, who had \$33 a month, will get \$25. And so on through every functionary, including the bakers, seamstresses, cooks and engineers. The attendants in the Deaf and Dumb Institute, the Industrial School for the Feeble-minded, the Blind, the Penitentiary and the State House were all docked on the same principle. The State Board of Charities, which asked for \$54,000 for various purposes, received \$11,000.

The New Grand Jury. Judge Cheney and Commissioner McLaughlin yesterday drew the following names from the Grand Jury box, and they are to serve. He discharged yesterday the old jury. W. B. Chamberlain, B. G. Clow, S. O. Wells, B. C. Shearer, G. H. Fogg, H. W. Higgins, R. Ryland, P. B. Comstock, A. B. Williams, T. P. Bradshaw, J. N. Evans, Ed. Coffin, P. Gilson, M. Nathan, C. Novakovich, P. Lewis, John Sieden, J. G. Kerth, O. C. Rose, H. Whistler, W. H. Noyes, B. S. James, B. F. Rhodes, Jos. Frey.

They are summoned to appear before the Court on May 4th.

Come to Stay.

Judge and Mrs. A. E. Cheney and their little son have come to Reno to make it their home in the future, and the Gazzette bespeaks for them a most hearty welcome. They are to move into the house recently occupied by Judge Bigelow, which Judge Cheney has bought.

The Crow Indians have made a protest to the officers at Fort Ouster, Mont., against the leasing of their land for raising purposes.

Highest of all in Leavening Power.—U. S. Govt Report, Aug. 17, 1889.

BREVITIES.

Local and General Intelligence.

The river is quite high these days. Travel to the Yosemite is increasing.

The mills at Lake Tahoe will start up on the 15th inst.

How about the Fourth of July? Do we celebrate or no?

The County Commissioners will be in session next Monday.

The arguments in the Olsen case at Merced will begin next Monday.

The weather is all the most chronic growler in the community could ask for.

Mrs. J. G. Rule and her daughter Dollie were passengers for San Francisco last night.

Sacramento is making extensive preparations for the entertainment of President Harrison and his party tomorrow.

Levi Dague, coiner of the Carson Mint during James Crawford's superintendency, died in Marietta, Cal., on April 23d.

It is probable that by the 1st of August Marysville and Riverside, Cal., will be supplied with the free delivery postal system.

Somebody has been sowing poison broadcast in Hawthorne, and nearly all the chickens in that town got enough to make them turn up their toes.

Jim Townsend says the pestiferous blow-bly has got his lightning incubator in prime working order, and the woodtick's ginlet is sharpened for the summer campaign.

The Women's Guild of Trinity Church will meet tomorrow afternoon at the residence of Mrs. C. A. Bragg on West street. A prompt and full attendance is earnestly requested.

On last Sunday, a Placerville, California lady, while on her way to church, picked up a \$10 nugget of gold from the street, which somehow had been overlooked during the last forty years.

True to the shop—"How did your sores go off, Mr. Wolfe?" "Simply magnificent; nobody but gentlemen of the first society. Their clothes were all of genuine wool." They buy them from John Sunderland.

Mrs. A. Tucker, wife of Dr. Tucker of The Dalles, Or., was accidentally killed day before yesterday on Mill creek, near that city. She was fishing and fell into the water head foremost, striking against a rock.

At Monterey there has been posted a warning that "Leo Vanburkle must provide for his wife and two children who are here destitute, or he must suffer the consequences." The notice is signed "Tar and Feathers."

Three men, Joseph Burns, Frank Burns and George Rumbold, were caved on in the Gray Eagle Bar Tunnel, near Michigan Bluff, Placer county, on Monday. The first two were rescued, but Rumbold was killed.

A good appetite is essential to good health, and loss of appetite indicates that something is wrong. Hood's Sarsaparilla creates and sharpens the appetite, assists the digestive organs and cleanses the kidneys and liver. Take Hood's Sarsaparilla this season. Sold by druggists.

Now the balmy breezes blow, and the small boy stubs his toe, and immediately there follows a succession of hard bumps, together with the colic, the measles and the mumps. For La Marcellaine cigars go to A. Nelson's cigar store.

City Marshal Robinson of Walla Walla, Washington, has ordered all the gambling saloons to be closed, and Mayor Blalock has issued a proclamation that saloons can no longer keep open on Sundays. This is the result of the recent tragedy at that town.

Mrs. Stella Wade, whose husband just before his death, disposed of \$5,000 to parties at Los Angeles, because he was determined to prevent her from getting any of the money, has succeeded in recovering some thing more than \$2,000 of the funds.

The Northern Pacific is to be improved between Pasco and Tacoma to the amount of nearly a million dollars. The road from Stampede Pass to the Columbia river will be put in such shape as to permit of a safe running time of forty-five to fifty miles per hour.

Two parties of colonists arrived at Merced, Cal., the other day, one from Holland and the other from Illinois. The former were twenty-six in number and were booked for the Rutland colony. The Illinois people numbered thirteen and they are bound for the Dean colony, four miles west of Merced.

"I notice in your list of college expenses here," said the parent to his student son, "a lot of items about beer and wine, but," referring to the furnishing of his study lamp, "I don't see any entries for coal oil?" "Why, you don't expect a fellow to drink coal oil, do you?" He buys his cigars and cigarettes of Marcus Fredrick.

Hon. Jay Ewing, American Consul at Victoria, B. C., at a banquet recently, was reported as saying that the separation of England and the United States was a most unfortunate affair. He now states that what he did say was that had England granted the same freedom to the United States that she now grants to Canada there would have been no Revolutionary War.

Nature in Her New Suit. The door-yards in town and the surrounding country look charming now. The grass has got a good start, the peach and other fruit trees are in full bloom, the shade trees are putting forth their leaves and all nature seems alive to the importance of the occasion. Reno will be a perfect forest in five years from to-day.

TO-NIGHT'S ENTERTAINMENT.

May Day Festival and Dance at the Pavilion. "Welcome May! With garlands gay We'll crown thy head to-night. The young shall deck themselves with flowers And sing thy praise with faces bright. Through evening's pleasant hours Long may they sing 'Welcome May.'"

Let all our people be at the Pavilion promptly at 8 o'clock to-night. The exercises, followed by the May Pole dance, begin at that hour. At 9 o'clock the general social will begin. Following is the program:

Instrumental duet. Clayton's March. "Gentle Kline, Belle Rulison. Vocal solo. "Life's Story." "The Crooked Stick." "The Proposal."

Vocal solo. Miss Grace E. Wason. Recitation. "The Necessity of Union." "Come Back, Sweet May."

May Pole Dance. 1,500 MILES.

But She Got It.—A Sample of Letters Daily Received. Only those who have tried it can know what it is that prompts one to send 1,500 miles for it to get it again. Here is a sample of many such instances:

Dear Sir: I send \$5.00 for which please return a half dozen of your vegetable Sarsaparilla. I have moved here from Sierra City, Cal. I took three bottles before leaving hence I send all the way back to California for more. It was just before I left Sierra City, about a year ago, that I began to feel very miserable. My skin was very yellow, and I was all pains and aches, especially under my shoulders and in my head. The doctor said it was my liver, and gave me some medicine which relieved me somewhat. One of my neighbors happened in and told me she had started to take Joy's Vegetable Sarsaparilla, and advised me to try it. I did, and with such good effect that I now feel like a new being. I have persuaded one of my neighbors here to take it, so part of this is for her and part for myself.

MRS. GEO. DELBRIDGE. Butte City, Montana. The reader, who has not tried it, has no idea what the vegetable juices in this remedy will do for disordered systems.

Don't Throw up the Sponge! That hideous cure, Giant Sarsaparilla, often fails his clutches upon the chronic invalid. Constantly plagued by dyspepsia, biliousness and constipation—nervous and sleepless too—what wonder is it that having tried in vain a multitude of useless remedies he is ready, figuratively speaking, "to throw up the sponge." Let the fortunate "take heart of grace," the Hostetter's Stomach Bitters and will put a terminus to his trials. It strengthens the stomach, confers nervous vigor by promoting assimilation to the food, arouses the liver when dormant and relaxes the bowels without pain. The ability to digest and assimilate restored, the appetite returns, and health, but imprudence. Hostetter's Stomach Bitters, moreover, cures the liver and kidneys as a remedy for malarial, rheumatic and kidney complaints. A wineglassful three times a day.

The Great Spring Medicine. It will be gratifying to all who realize the vital necessity of purifying the blood, to know that Hibbard's Rheumatic Syrup can be relied upon as a blood medicine. Mr. B. C. Robinson, of Marshall, Mich., says: "GENTLEMEN—I have suffered intensely from biliousness and rheumatism for over three years and had tried so many remedies that I lost all faith. Hearing of Hibbard's Rheumatic Syrup I bought a bottle and found it helped me. I have now used four bottles, and it has restored my liver and kidneys to healthy action, and done more to purify my blood than anything I have ever taken. I am pleased to recommend it as a wonderful blood medicine. Yours very truly, B. C. Robinson, Marshall, Mich. Sold by all druggists. Prepared on y by the Charles Wright Medicine Company, Detroit, Mich."

Advice to Mothers. Mrs. Winslow's Sore Throat Syrup should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Notice. ON AND AFTER MAY 1, 1891, THE FOLLOWING prices will be charged for wood:
